TO THE
HONOURABLE ARTILLERY COMPANY
OF LONDON, ENGLAND

THIS ALBUM IS RESPECTFULLY DEDICATED

www.libtool.com.cn

PREFATORY NOTE.

HE PRESENT volume has two distinct aims. First, that our guests, the Honourable Artillery Company of London, may be presented with portraits, in convenient form, of their friends in the Ancient and Honorable Artillery Company of Massachusetts. Second, to provide members of the "Ancients" with accurate likenesses of their comrades — believing that such record will not only have present interest, but be increasingly valuable as time passes.

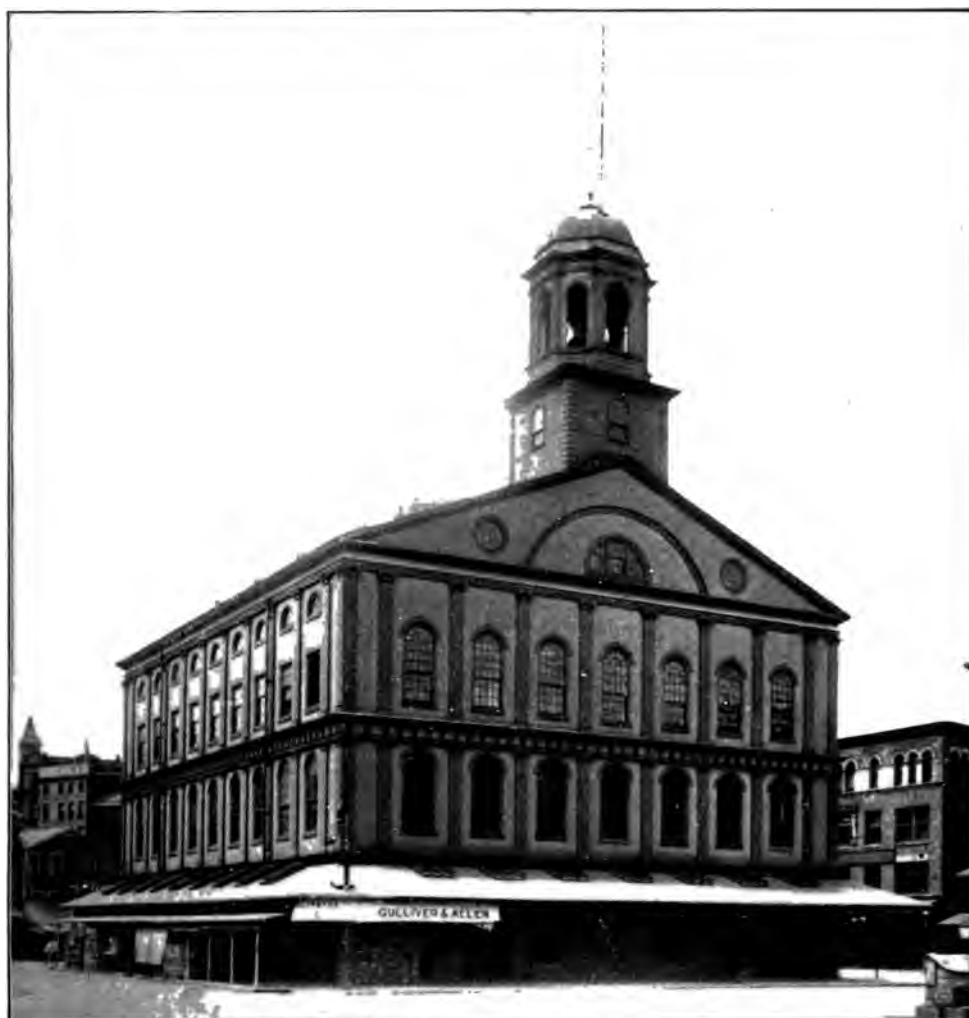

We regret that despite all efforts to have the list complete, some faces will be missed, though the large majority of the active members are represented.

Except those of commanders, rank or precedence has not been considered in the arrangement of portraits — simply that friends may be grouped together.

An alphabetical index will be found at the end of the volume to assist in finding any desired portrait.

We are under obligations to the officers and members of the Company for their approval and kindly aid in the preparation of the album, and we hope our efforts will warrant the confidence reposed in us.
