Honorable Thomas B. Murphy
Speaker of the House

Atlanta, Georgia 30334

Dear Mr. Speaker:

I have vetoed House Bills 38, 222, 253, 262, 326, 365, 441 and 516 which were passed by the General Assembly of Georgia at the 1995 Regular Session.

Article III, Section V, Paragraph XIII of the Constitution requires that I transmit such bills to you, together with a list of reasons for such vetoes. The bills and corresponding reasons for their veto are attached.

With kindest regards, I remain

Sincerely,

VETO NUMBER ONE

House Bill 441 prohibits refund claims of ad valorem property taxes where claimant fails to equalize the claimant's property value with like property within the jurisdiction, assess the claimant's property uniformly with like property within the jurisdiction, or properly ascertain the taxability or value of claimant's property.

After passage, the author of the bill discovered a defect in the bill and requested its veto. Therefore, at the request of the author, I hereby veto House Bill 441 on technical grounds.

VETO NUMBER TWO

House Bill 38, the "Property Tax Credit Act of 1995" provides an income tax credit for a portion of property taxes paid. In the event the tax credit claimed exceeds the amount of the income tax payment due from the taxpayer, the excess would be refunded to the taxpayer. The effective date of this act is January 1, 1996.

The Office of Attorney General Michael Bowers has advised me that House Bill 38 is an unconstitutional violation of the gratuities clause of the Georgia Constitution. Article III, Section VI, Paragraph VI of the 1983 Georgia Constitution provides "The General Assembly shall not have the power to grant any donation or gratuity." According to Mr. Bowers' office "the refundable credit resulting from an income tax liability less than a property tax credit as provided in Code Section 48-7-29 cannot be justified under any of (the) exceptions to the gratuities prohibition. Therefore, I believe H.B. 38 is unconstitutional."

The Attorney General's office also addressed the issue of severability of illegal provisions of bills, concluding: "Though difficult to predict, courts generally try to sever unconstitutional provisions from legislation. I doubt that a court would do so in regard to H.B. 38."

For these reasons, I hereby veto House Bill 38.

VETO NUMBER THREE

House Bill 516 authorizes ticket brokering in Georgia. This bill makes it unlawful for any person other than a ticket broker to resell in excess of their face value admission tickets to athletic contests, concerts, theater performances or other entertainments, amusements, or exhibitions.

Current state law prohibits ticket scalping by everyone. House Bill 516 legalizes ticket scalping and creates an unfair monopoly for ticket brokers. This bill fails to protect consumers and is unfair to performers and athletes.

The attempts to regulate ticket brokers contained in House Bill 516 contain potential problems, including:

A low bond amount of \$50,000. Should a ticket broker fail or abscond, this amount is likely to pay out only pennies on the dollar to ticket purchasers;

There is no requirement that a ticket broker make refunds if an event is cancelled;

There is no penalty for a ticket broker who fails to deliver a paid-for ticket unless the ticket broker has guaranteed in writing the delivery of the ticket. But there is no requirement that ticket delivery be guaranteed in writing.

For the protection of consumers and performers and athletes, I hereby veto House Bill 516.

VETO SIX

House Bill 222 provides that after a juvenile court judge has found a youth delinquent or unruly, and if the youth is in a detention center, the court may include in its order directives relating to the youth's health, safety, hygiene and rehabilitation.

Under current law, DCYS as legal custodian of committed children, has authority to determine appropriate services. Provision of custodial services is an executive branch responsibility and authority. House Bill 222 would violate the separation of powers clause of the Georgia Constitution by giving this authority to the judicial branch.

Further, House Bill 222 potentially creates entitlement to services the Department of Children and Youth may or may not have the funds to provide.

For these reasons, I hereby veto House Bill 222.

VETO EIGHT

House Bill 326 changes eligibility for membership in the Peace Officers' Annuity and Benefit Fund.

State Auditor Claude L. Vickers has advised me that this is a retirement bill as defined in O.C.G.A. Sec. 47-20-32. Consequently, according to Mr. Vickers, "the state auditor's certification provided for in O.C.G.A. Sec. 47-20-32 is required to be attached to the bill before it may be introduced into the General Assembly. Consideration of this bill without certification from the state auditor violated Georgia law.

Had the state auditor been requested to certify whether this bill was a fiscal or nonfiscal retirement bill, the conclusion would most likely have been that this was a fiscal retirement bill as defined in O.C.G.A. Sec. 47-20-30. Accordingly, O.C.G.A. Sec. 47-20-34 provides that such a fiscal retirement bill may not be passed in the first year of the biennial session."

For the reasons outlined by Mr. Vickers, I hereby veto House Bill 326.

VETO NINE

House Bill 365 requires the Department of Education to pay the cost of advanced placement tests taken by eligible private high school students and eligible home study program students.

This bill sets a precedent for using limited public resources to help defray the costs of families that elect to send their children to private secondary schools.

The Fiscal Year 1996 costs for House Bill 365 are projected to be at least \$377,000. This cost was not included in House Bill 202, the Fiscal Year 1996 budget act.

For these reasons, I hereby veto House Bill 365.

VETO NUMBER 10

House Bill 262 expands the eligibility of an existing pilot family support program to include individuals who are developmentally delayed but not mentally retarded.

Expanding the eligibility criteria for family support services and requiring that this program be made available throughout the state could result in a tremendous financial impact upon the state. Estimates are that if only 1% of those eligible participate in this program, the cost would be at least \$7,000,000.

Legislation with huge financial costs should be addressed in the appropriations act. Bills which are contingent upon funds being appropriated in the future delay but do not disguise the ultimate impact upon the state's limited resources.

For these reasons, I hereby veto House Bill 262.

VETO NUMBER 11

www.libtool.com.cn
House Bill 253 removes the 75 percent limit on the amount of boarding financial assistance the Department of Human Resources provides to families adopting certain hard-to-place children.

The cost of increasing the boarding rate would be approximately \$3,447,384.

As I have said in a previous veto message, legislation with huge financial costs should be addressed in the appropriations act. Bills which are contingent upon funds being appropriated in the future delay but do not disguise the ultimate impact upon the state's limited resources.

For these reasons, I hereby veto House Bill 253.

Honorable Pierre Howard
Lieutenant Governor

Dear Lieutenant Governor Howard:

I have vetoed Senate Bills 34, 49, 133, 148, 206 and 250 which were passed by the General Assembly of Georgia at the 1995 Regular Session.

Article III, Section V, Paragraph XIII of the Constitution requires that I transmit such bills to you, together with a list of reasons for such vetoes. The bills and corresponding reasons for their veto are attached.

VETO FOUR

Senate Bill 34 provides any driver's license issued for a driver under age 21 will remain valid until that person's 21st birthday.

The Department of Public Safety plans to begin stamping renewal license with "under 21 until (the 21st birthday)" as part of the new Digital Image License Issuance program. Consequently, the expense of reprogramming computers to accommodate SB 34 is unnecessary.

For this reason, I hereby veto Senate Bill 34.

VETO FIVE

Senate Bill 133 codifies permitted and prohibited political activity and codifies grievance procedures for state employees.

This bill opens the door for state employees to unduly influence subordinate employees and potentially misuse staff and resources.

State Personnel Board Rules and Regulations currently require, and provide strict standards for, each department and agency to establish grievance procedures. The new procedure proposed in SB 133 will take considerable staff time away from service delivery and client centered activities and will result in an adversarial climate in the work unit. Departmental costs to implement SB 133 could reach \$1,000,000.

For these reasons, I hereby veto Senate Bill 133.

VETO SEVEN

Senate Bill 250 provides persons at least 15 years old who are taking in-car training from a licensed instructor are exempt from the requirement for a drivers license. To allow a minor to operate a motor vehicle without requiring a test of traffic rules, even under the supervision of an instructor, is dangerous.

Accordingly, I hereby veto Senate Bill 250.

VETO NUMBER 12

Senate Bill 206 was originally drafted to authorize the commissioner of the Department of Public Safety to promulgate rules and regulations as necessary to fulfill the duties of the commissioner. The original version was intended to give the commissioner the same authority as other agency heads.

The bill was amended to provide for the creation of an auxiliary service within the State Patrol, composed of former state troopers who voluntarily left in good standing through retirement or resignation. This special service would serve on a part-time basis when needed, be paid hourly, receive equipment, and have the same authority and powers as current full-time state troopers. The members of this service would also be required to receive training.

Estimating the cost of this bill is speculative, dependant upon the number of members who would serve and the hours they would work. However, cost estimates are over \$500,000. No need for such service at such large expense has been demonstrated.

For this reason, I hereby veto Senate Bill 206.

VETO 13

Senate Bill 49 designates the English language as the official language of the State of Georgia. The bill specifies the official language shall be used in public records, and for official Acts.

Under a joint resolution passed by the Georgia General Assembly in 1986, English is already designated as the official language of the State of Georgia, recognizing the "continuing, unifying role that the English language plays in the stability and cohesion of the lives of the people of this state and nation."

Senate Bill 49 is plainly an effort to accomplish the identical goal made law by the 1986 General Assembly. Unfortunately, an amendment to SB 49 added a provision detrimental to the current designation of English as the official language of Georgia.

Senate Bill 49 provides "a person who uses or speaks a language other than the official language shall have the right to file a civil action for damages and equitable relief, including injunction, for violation of this subsection."

www.libtool.com.cn

I believe this wording is an open invitation for litigation and creates a new right which could well result in a flurry of expensive lawsuits.

For these reasons, I hereby veto Senate Bill 49.

VETO 14

Senate Bill 148 changes the deadlines for registration in certain special primaries and elections.

An amendment to the original bill moves the qualifying dates for independent and political body candidates to begin on the fourth Monday in April. This would be the same time as political party candidate qualifying. Presently, the independent and political body candidates qualify beginning on the fourth Monday in June.

The qualifying dates have been a subject of past litigation which was settled by changing the law to allow later qualifying for independent and political body candidates. The amendment creates a strong possibility of generating equal protection lawsuits.

For this reason, I hereby veto Senate Bill 148.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, is amended by striking Code

Section 21-2-3, relating to definitions and descriptions for use in designating congressional districts, and inserting in its place the following:

“21-2-3.

For purposes of this article:

- (1) The terms ‘Tract,’ ‘Block,’ and ‘~~VTD~~’ ‘Block Group’ shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 1990 for the State of Georgia.
- (2) ~~The term ‘Precinct’ is synonymous with the term ‘voting precinct’ and means a geographical area, established in accordance with Article 7 of this chapter, within which all electors vote at one polling place.~~
- (3) Whenever the description of any congressional district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 1990 for the State of Georgia.
- (4) ~~Precinct names and designations following VTD designations are included for convenience only; and in the event the description of any congressional district contains a conflict between the geographical boundaries of any VTD and the boundaries of the following named precinct, the geographical boundary of the VTD as shown on the census maps for the United States decennial census of 1990 for the State of Georgia shall control.~~
- (5)(3) Any part of the State of Georgia which is described in subsection (a) of Code Section 21-2-4 as being included in a particular congressional district shall nevertheless not be included within such congressional district if such part is not contiguous to such congressional district. Such noncontiguous part shall instead be included within that congressional district contiguous to such part which contains the least population according to the United States decennial census of 1990 for the State of Georgia.”

SECTION 2.

Said article is further amended by striking the description of the 11 congressional districts immediately following the second sentence of subsection (a) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the description of the 11 congressional districts attached to this Act and made a part hereof and further identified as “Operator: state Client: congress Plan: hb8excs.”

SECTION 3.

Said article is further amended by striking subsection (c) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the following:

“(c) The first members elected pursuant to the provisions of this Code section shall be those who are elected to take office in January, ~~1993~~ 1997. Successors to those members and future successors shall likewise be elected under the provisions of this Code section. Until that time the members of the United States House of Representatives elected in ~~1990~~ 1994 shall continue to serve and, for all purposes relative to membership in the House of Representatives, the composition of congressional districts from which such members were elected shall remain the same. The provisions of this Code section shall be effective for the primaries and elections of ~~1992~~ 1996 for the purpose of electing the members in ~~1992~~ 1996 who are to take office in ~~1993~~ 1997. For the purpose of appointing or electing members of boards or bodies where such are made on the basis of congressional districts, the provisions of this Code section shall be effective January 1, ~~1993~~ 1997.”

SECTION 4.

Said article is further amended by striking Code Section 21-2-4.1, relating to continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district, and inserting in its place the following:

“21-2-4.1.

In the event any congressional district created by this chapter has residing therein more members of any such board or body than the number of members specified by the applicable constitutional provision or statute, the appointing authority shall designate which member or members representing the congressional district shall continue to serve as a member or members of the board or body. Any member not designated for continued membership shall cease to hold office as of ~~the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1~~ January 1, 1997. If a congressional district created by this chapter is not represented on a board or body as specified by the applicable constitutional provision or statute, a vacancy shall exist. Such vacancy shall be filled ~~as of the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1~~ by the appointing authority appointing to the board or body a member or members from the congressional district which does not have sufficient representation. In the case of an appointment to fill a vacancy created by the displacement of a member from a congressional district on the basis of residency, the initial appointment shall be for a term ending on the date on which the term of the member removed by the appointing authority in accordance with the foregoing requirement would have ended. The initial term of all other appointments to fill a vacancy as provided for in this Code section shall be set by the appointing authority in accordance with the schedule of expiration dates established by law for the terms of members of the board or body.”

SECTION 5.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

The following substitute, offered by Representatives Lawrence of the 64th and Brooks of the 54th, was read:

A BILL

To amend Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, so as to provide definitions and descriptions for use in designating congressional districts; to provide for the description of congressional districts; to provide for the election of members of Congress; to provide for the continuation of present congressional districts until a certain time; to make certain provisions relative to certain boards and bodies; to provide for continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, is amended by striking Code Section 21-2-3, relating to definitions and descriptions for use in designating congressional districts, and inserting in its place the following:

“21-2-3.

For purposes of this article:

- (1) The terms ‘Tract; and ‘Block;’ and ‘VTD’ shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 1990 for the State of Georgia.
- (2) ~~The term ‘Precinct’ is synonymous with the term ‘voting precinct’ and means a geographical area, established in accordance with Article 7 of this chapter, within which all electors vote at one polling place.~~
- (3) Whenever the description of any congressional district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 1990 for the State of Georgia.

~~(4) Precinct names and designations following VTD designations are included for convenience only; and in the event the description of any congressional district contains a conflict between the geographical boundaries of any VTD and the boundaries of the following named precinct, the geographical boundary of the VTD as shown on the census maps for the United States decennial census of 1990 for the State of Georgia shall control.~~

(5)(3) Any part of the State of Georgia which is described in subsection (a) of Code Section 21-2-4 as being included in a particular congressional district shall nevertheless not be included within such congressional district if such part is not contiguous to such congressional district. Such noncontiguous part shall instead be included within that congressional district contiguous to such part which contains the least population according to the United States decennial census of 1990 for the State of Georgia.”

SECTION 2.

Said article is further amended by striking the description of the 11 congressional districts immediately following the second sentence of subsection (a) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the description of the 11 congressional districts attached to this Act and made a part hereof and further identified as “Operator: represent Client: repcaucus Plan: amicus.”

SECTION 3.

Said article is further amended by striking subsection (c) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the following:

“(c) The first members elected pursuant to the provisions of this Code section shall be those who are elected to take office in January, ~~1993~~ 1997. Successors to those members and future successors shall likewise be elected under the provisions of this Code section. Until that time the members of the United States House of Representatives elected in ~~1990~~ 1994 shall continue to serve and, for all purposes relative to membership in the House of Representatives, the composition of congressional districts from which such members were elected shall remain the same. The provisions of this Code section shall be effective for the primaries and elections of ~~1992~~ 1996 for the purpose of electing the members in ~~1992~~ 1996 who are to take office in ~~1993~~ 1997. For the purpose of appointing or electing members of boards or bodies where such are made on the basis of congressional districts, the provisions of this Code section shall be effective January 1, ~~1993~~ 1997.”

SECTION 4.

Said article is further amended by striking Code Section 21-2-4.1, relating to continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district, and inserting in its place the following:

“21-2-4.1.

Any member of any constitutional or statutory board or body who is in office on January 1, ~~1993~~ 1997, and who was appointed on the basis of residency within a congressional district shall serve out the term for which the member was appointed and shall represent the congressional district created by this chapter in which the member resides unless more members of the board or body than authorized by the applicable constitutional provision or statute reside within the same congressional district. In the event any congressional district created by this chapter has residing therein more members of any such board or body than the number of members specified by the applicable constitutional provision or statute, the appointing authority shall designate which member or members representing the congressional district shall continue to serve as a member or members of the board or body. Any member not designated for continued membership shall cease to hold office as of the time specified in subparagraph (d)(2)(C) of Code Section ~~1-3-1~~ January 1, 1997. If a congressional district created by this chapter is not represented on a board or body as specified by the applicable constitutional provision

or statute, a vacancy shall exist. Such vacancy shall be filled as of the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1 by the appointing authority appointing to the board or body a member or members from the congressional district which does not have sufficient representation. In the case of an appointment to fill a vacancy created by the displacement of a member from a congressional district on the basis of residency, the initial appointment shall be for a term ending on the date on which the term of the member removed by the appointing authority in accordance with the foregoing requirement would have ended. The initial term of all other appointments to fill a vacancy as provided for in this Code section shall be set by the appointing authority in accordance with the schedule of expiration dates established by law for the terms of members of the board or body."

SECTION 5.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 6.

All laws and parts of laws in conflict with this Act are repealed.

A BILL

To amend Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, so as to provide definitions and descriptions for use in designating congressional districts; to provide for the description of congressional districts; to provide for the election of members of Congress; to provide for the continuation of present congressional districts until a certain time; to make certain provisions relative to certain boards and bodies; to provide for continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, is amended by striking Code Section 21-2-3, relating to definitions and descriptions for use in designating congressional districts, and inserting in its place the following:

"21-2-3.

For purposes of this article:

(1) The terms 'Tract,' 'Block,' and 'VTD' 'Block Group' shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 1990 for the State of Georgia.

(2) The term 'Precinct' is synonymous with the term 'voting precinct' and means a geographical area, established in accordance with Article 7 of this chapter, within which all electors vote at one polling place.

(3) Whenever the description of any congressional district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 1990 for the State of Georgia.

(4) Precinct names and designations following VTD designations are included for convenience only; and in the event the description of any congressional district contains

a conflict between the geographical boundaries of any VTD and the boundaries of the following named precinct, the geographical boundary of the VTD as shown on the census maps for the United States decennial census of 1990 for the State of Georgia shall control. www.libtool.com.cn

(5)(2) Any part of the State of Georgia which is described in subsection (a) of Code Section 21-2-4 as being included in a particular congressional district shall nevertheless not be included within such congressional district if such part is not contiguous to such congressional district. Such noncontiguous part shall instead be included within that congressional district contiguous to such part which contains the least population according to the United States decennial census of 1990 for the State of Georgia.”

SECTION 2.

Said article is further amended by striking the description of the 11 congressional districts immediately following the second sentence of subsection (a) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the description of the 11 congressional districts attached to this Act and made a part hereof and further identified as “Operator: represent Client: coalition Plan: mslss.”

SECTION 3.

Said article is further amended by striking subsection (c) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the following:

“(c) The first members elected pursuant to the provisions of this Code section shall be those who are elected to take office in January, ~~1993~~ 1997. Successors to those members and future successors shall likewise be elected under the provisions of this Code section. Until that time the members of the United States House of Representatives elected in ~~1990~~ 1994 shall continue to serve and, for all purposes relative to membership in the House of Representatives, the composition of congressional districts from which such members were elected shall remain the same. The provisions of this Code section shall be effective for the primaries and elections of ~~1992~~ 1996 for the purpose of electing the members in ~~1992~~ 1996 who are to take office in ~~1993~~ 1997. For the purpose of appointing or electing members of boards or bodies where such are made on the basis of congressional districts, the provisions of this Code section shall be effective January 1, ~~1993~~ 1997.”

SECTION 4.

Said article is further amended by striking Code Section 21-2-4.1, relating to continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district, and inserting in its place the following:

“21-2-4.1.

Any member of any constitutional or statutory board or body who is in office on January 1, ~~1993~~ 1997, and who was appointed on the basis of residency within a congressional district shall serve out the term for which the member was appointed and shall represent the congressional district created by this chapter in which the member resides unless more members of the board or body than authorized by the applicable constitutional provision or statute reside within the same congressional district. In the event any congressional district created by this chapter has residing therein more members of any such board or body than the number of members specified by the applicable constitutional provision or statute, the appointing authority shall designate which member or members representing the congressional district shall continue to serve as a member or members of the board or body. Any member not designated for continued membership shall cease to hold office as of the time specified in subparagraph (d)(2)(C) of Code Section ~~1-2-1~~ January 1, 1997. If a congressional district created by this chapter is not represented on a board or body as specified by the applicable constitutional provision or statute, a vacancy shall exist. Such vacancy shall be filled as of the time specified in subparagraph (d)(2)(C) of Code Section ~~1-2-1~~ by the appointing authority appointing

to the board or body a member or members from the congressional district which does not have sufficient representation. In the case of an appointment to fill a vacancy created by the displacement of a member from a congressional district on the basis of residency, ~~the initial appointment~~ shall be for a term ending on the date on which the term of the member removed by the appointing authority in accordance with the foregoing requirement would have ended. The initial term of all other appointments to fill a vacancy as provided for in this Code section shall be set by the appointing authority in accordance with the schedule of expiration dates established by law for the terms of members of the board or body.”

SECTION 5.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 6.

All laws and parts of laws in conflict with this Act are repealed.

On the passage of the Bill, by substitute, the ayes were 103, nays 66.

The Bill, having received the requisite constitutional majority, was passed, by substitute.

By unanimous consent, HB 8EX was ordered immediately transmitted to the Senate.

Please spread upon the pages of the Journal of today's action the fact that my "yes" vote on HB8EX, the bill redistricting the congressional districts, was only cast to advance the process. I strongly oppose the configuration of the First District, however, and am hopeful the counties long, historically a portion of that district will be restored in conference.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, is amended by striking Code Section 21-2-3, relating to definitions and descriptions for use in designating congressional districts, and inserting in its place the following:

"21-2-3.

For purposes of this article:

(1) The terms 'Tract,' 'Block,' and 'VTD' 'Block Group' shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 1990 for the State of Georgia.

~~(2) The term 'Precinct' is synonymous with the term 'voting precinct' and means a geographical area, established in accordance with Article 7 of this chapter, within which all electors vote at one polling place.~~

~~(3) Whenever the description of any congressional district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 1990 for the State of Georgia.~~

~~(4) Precinct names and designations following VTD designations are included for convenience only; and in the event the description of any congressional district contains a conflict between the geographical boundaries of any VTD and the boundaries of the following named precinct, the geographical boundary of the VTD as shown on the census maps for the United States decennial census of 1990 for the State of Georgia shall control.~~

~~(5)~~(2) Any part of the State of Georgia which is described in subsection (a) of Code Section 21-2-4 as being included in a particular congressional district shall nevertheless not be included within such congressional district if such part is not contiguous to such congressional district. Such noncontiguous part shall instead be included within that congressional district contiguous to such part which contains the least population according to the United States decennial census of 1990 for the State of Georgia."

SECTION 2.

Said article is further amended by striking the description of the 11 congressional districts immediately following the second sentence of subsection (a) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the description of the 11 congressional districts attached to this Act and made a part hereof and further identified as "Operator: senator Client: taylor Plan: hb8exfs."

SECTION 3.

Said article is further amended by striking subsection (c) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the following:

"(c) The first members elected pursuant to the provisions of this Code section shall be those who are elected to take office in January, ~~1993~~ 1997. Successors to those members and future successors shall likewise be elected under the provisions of this Code section. Until that time the members of the United States House of Representatives elected in ~~1990~~ 1994 shall continue to serve and, for all purposes relative to membership in the House of Representatives, the composition of congressional districts from which such members were elected shall remain the same. The provisions of this Code section shall be effective for the primaries and elections of ~~1992~~ 1996 for the purpose of electing the

members in ~~1992~~ 1996 who are to take office in ~~1993~~ 1997. For the purpose of appointing or electing members of boards or bodies where such are made on the basis of congressional districts, the provisions of this Code section shall be effective January 1, ~~1993~~ 1997." www.libtool.com.cn

SECTION 4.

Said article is further amended by striking Code Section 21-2-4.1, relating to continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district, and inserting in its place the following:

"21-2-4.1.

Any member of any constitutional or statutory board or body who is in office on January 1, ~~1993~~ 1997, and who was appointed on the basis of residency within a congressional district shall serve out the term for which the member was appointed and shall represent the congressional district created by this chapter in which the member resides unless more members of the board or body than authorized by the applicable constitutional provision or statute reside within the same congressional district. In the event any congressional district created by this chapter has residing therein more members of any such board or body than the number of members specified by the applicable constitutional provision or statute, the appointing authority shall designate which member or members representing the congressional district shall continue to serve as a member or members of the board or body. Any member not designated for continued membership shall cease to hold office as of ~~the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1~~ January 1, 1997. If a congressional district created by this chapter is not represented on a board or body as specified by the applicable constitutional provision or statute, a vacancy shall exist. Such vacancy shall be filled ~~as of the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1~~ by the appointing authority appointing to the board or body a member or members from the congressional district which does not have sufficient representation. In the case of an appointment to fill a vacancy created by the displacement of a member from a congressional district on the basis of residency, the initial appointment shall be for a term ending on the date on which the term of the member removed by the appointing authority in accordance with the foregoing requirement would have ended. The initial term of all other appointments to fill a vacancy as provided for in this Code section shall be set by the appointing authority in accordance with the schedule of expiration dates established by law for the terms of members of the board or body."

SECTION 5.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 6.

All laws and parts of laws in conflict with this Act are repealed.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, is amended by striking Code Section 21-2-3, relating to definitions and descriptions for use in designating congressional districts, and inserting in its place the following:

~~(2) The term 'Precinct' is synonymous with the term 'voting precinct' and means a geographical area, established in accordance with Article 7 of this chapter, within which all electors vote at one polling place.~~

~~(3) Whenever the description of any congressional district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 1990 for the State of Georgia.~~

~~(4) Precinct names and designations following VTD designations are included for convenience only; and in the event the description of any congressional district contains a conflict between the geographical boundaries of any VTD and the boundaries of the following named precinct, the geographical boundary of the VTD as shown on the census maps for the United States decennial census of 1990 for the State of Georgia shall control.~~

~~(5)(2) Any part of the State of Georgia which is described in subsection (a) of Code Section 21-2-4 as being included in a particular congressional district shall nevertheless not be included within such congressional district if such part is not contiguous to such congressional district. September 11, 1995

Pursuant to Rule 137 of the Rules of the House of Representatives, I hereby file this entry into the Journal of the House to explain my "no" vote on today's motion to instruct the House Reapportionment Committee to pass H.B. 23EX, pursuant to Rule 58.

H.B. 23EX represents the "Gingrich-Lewis" map for congressional reapportionment. To vote for this map would be giving the inherent power this General Assembly holds to create congressional district lines over to the incumbent congressional delegation. To do so is in direct opposition of the public opinion, now consensus, that we should not act to perpetuate an incumbent congress, and through campaign finance reform and other measures we should act to level the playing field between challenger and incumbent.

Respectfully submitted,

Mr. Speaker:

Under Rule 137 of the House I wish to place in the House Record an explanation of my vote on HB 23EX.

I voted "yes" because, as stated in Rule 58, it was a procedural vote to instruct the Committee to report the Amicus Plan back to the House. It was not a "yes" vote on the plan, which I do not support.

To amend Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, so as to provide definitions and descriptions for use in designating congressional districts; to provide for the description of congressional districts; to provide for the election of members of Congress; to provide for the continuation of present congressional districts until a certain time; to make certain provisions relative to certain boards and bodies; to provide for continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 1 of Chapter 2 of Title 21 of the Official Code of Georgia Annotated, relating to general provisions regarding elections and primaries generally, is amended by striking Code Section 21-2-3, relating to definitions and descriptions for use in designating congressional districts, and inserting in its place the following:

“21-2-3.

For purposes of this article:

- (1) The terms ‘Tract,’ ‘Block,’ and ‘VTD’ ‘Block Group’ shall mean and describe the same geographical boundaries as provided in the report of the Bureau of the Census for the United States decennial census of 1990 for the State of Georgia.
- (2) The term ‘Precinct’ is synonymous with the term ‘voting precinct’ and means a geographical area, established in accordance with Article 7 of this chapter, within which all electors vote at one polling place.
- (3) Whenever the description of any congressional district refers to a named city, it shall mean the geographical boundaries of that city as shown on the census maps for the United States decennial census of 1990 for the State of Georgia.
- (4) Precinct names and designations following VTD designations are included for convenience only; and in the event the description of any congressional district contains a conflict between the geographical boundaries of any VTD and the boundaries of the following named precinct, the geographical boundary of the VTD as shown on the census maps for the United States decennial census of 1990 for the State of Georgia shall control.

~~(6)~~(2) Any part of the State of Georgia which is described in subsection (a) of Code Section 21-2-4 as being included in a particular congressional district shall nevertheless not be included within such congressional district if such part is not contiguous to such ~~congressional district~~. Such noncontiguous part shall instead be included within that congressional district contiguous to such part which contains the least population according to the United States decennial census of 1990 for the State of Georgia.”

SECTION 2.

Said article is further amended by striking the description of the 11 congressional districts immediately following the second sentence of subsection (a) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the description of the 11 congressional districts attached to this Act and made a part hereof and further identified as “Operator: state Client: congress Plan: conf3.”

SECTION 3.

Said article is further amended by striking subsection (c) of Code Section 21-2-4, relating to the composition of congressional districts of Georgia, and inserting in its place the following:

“(c) The first members elected pursuant to the provisions of this Code section shall be those who are elected to take office in January, ~~1993~~ 1997. Successors to those members and future successors shall likewise be elected under the provisions of this Code section. Until that time the members of the United States House of Representatives elected in ~~1990~~ 1994 shall continue to serve and, for all purposes relative to membership in the House of Representatives, the composition of congressional districts from which such members were elected shall remain the same. The provisions of this Code section shall be effective for the primaries and elections of ~~1992~~ 1996 for the purpose of electing the members in ~~1992~~ 1996 who are to take office in ~~1993~~ 1997. For the purpose of appointing or electing members of boards or bodies where such are made on the basis of congressional districts, the provisions of this Code section shall be effective January 1, ~~1993~~ 1997.”

SECTION 4.

Said article is further amended by striking Code Section 21-2-4.1, relating to continuation in office, dismissal, or appointment of members of constitutional or statutory boards or bodies for which membership is based on residency within a congressional district, and inserting in its place the following:

“21-2-4.1.

In the event any congressional district created by this chapter has residing therein more members of any such board or body than the number of members specified by the applicable constitutional provision or statute, the appointing authority shall designate which member or members representing the congressional district shall continue to serve as a member or members of the board or body. Any member not designated for continued membership shall cease to hold office as of ~~the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1~~ January 1, 1997. If a congressional district created by this chapter is not represented on a board or body as specified by the applicable constitutional provision or statute, a vacancy shall exist. Such vacancy shall be filled ~~as of the time specified in subparagraph (d)(2)(C) of Code Section 1-3-1~~ by the appointing authority appointing to the board or body a member or members from the congressional district which does not have sufficient representation. In the case of an appointment to fill a vacancy created by the displacement of a member from a congressional district on the basis of residency, the initial appointment shall be for a term ending on the date on which the term

of the member removed by the appointing authority in accordance with the foregoing requirement would have ended. The initial term of all other appointments to fill a vacancy as provided for in this Code section shall be set by the appointing authority in accordance with the schedule of expiration dates established by law for the terms of members of the board or body.”
